Dr. El-Hajj Fuleihan gave a plenary presentation during a 2 days meeting held on the 2\textsuperscript{nd} and 3\textsuperscript{rd} of October 2016, by the Danish Diabetes Association, that focused on energy and bone/mineral metabolism. Her presentation entitled “\textbf{Diabetic Bone Diseases: The Clinical Syndrome}” was amongst several talks on diabetes and bone delivered by experts from the US (Columbia University, University of Massachusetts, and University of Toledo), and Europe (Karolinska Institute, Norway, Finland, and France).
