Calcium Metabolism and Osteoporosis Program

**Elderly Nursing Home Activity**- 31st of October 2017

Dr. Marlene Chakhtoura gave a brief presentation on osteoporosis, possible risk factors, and means of diagnosis, prevention, and control.

The presentation was attended by physicians and nurses working at Dar El Ajaza, who actively participated in the session and asked important questions.

After the presentation, attendees were divided into small groups where they were trained on FRAX-software and were given the opportunity to ask further questions and test their knowledge on the topic.

Medical staff at Dar El-Ajaza was asked to fill the FRAX-questionnaire for patients at the facility, and refer patients who are at high risk for fracture to AUBMC to do the bone density scan.
