Dr. El-Hajj Fuleihan Lecture on Osteoporosis for the “University of Seniors” at AUB (October 9, 2014-
Nabil Boustany Auditorium)

This lecture sheds the light on the burden of osteoporosis and its distribution in the population worldwide and in Lebanon. It also discusses the pathophysiology of the disease, its clinical presentation, ways of detecting it (Bone Density and Laboratory Testing) and avenues for prevention and treatment.

The event was attended by over 100 senior members of the “University for Seniors”, a new life-long learning initiative at AUB, the first of its kind in Lebanon and the Middle East. It gives older adults (who are 50 and above) the opportunity to share their wisdom and passion, to learn things they have always wanted to learn in a friendly academic environment and to interact socially with other seniors, and AUB faculty and students [More] [Facebook post]
