SHARP graduate accepted in the Hopkins Osler Internal Medicine residency

Dr. Tarek Zghaib, SHARP Summer 2015 graduate, has been accepted in the Hopkins Osler Internal Medicine residency after two years of research at Hopkins. Dr. Zghaib is the 4th AUB graduate and the 2nd SHARP graduate (the previous graduate is Dr. Victor Nauffal, SHARP Summer 2013), to be selected through the Leadership track and award that was initiated by Dr. Paul Hassoun. After the news was announced, Dr. Zughaib said: “I wouldn’t be there if it wasn't for you believing in all of us in the first place and in the training that AUB has provided us. Unquestionably, the SHARP program was an essential asset on this journey and clearly, the success of its graduates on both sides of the ocean witnesses to its unmeasurable value for an academic medical career.”

Congratulations!
